

2021 FALL STANDARD PRO TRAINING IS BACK! AUTOMOTIVE TRAINING THAT MAKES A DIFFERENCE

\$89.99 per class (\$69.99 for CSCs)

Contact your Auto Value sales representative to reserve your seat today!

All attendees must preregister. Dinner is served at 5:30 p.m. Training starts 6:00 p.m. and goes until approximately 9:00 p.m.

Ford EcoBoost

The goal of this class is to prepare the aftermarket technician to diagnose and repair driveability problems on Ford EcoBoost equipped engines. We will present diagnostic scenarios including misfire, boost faults, air and fuel control faults, and EVAP codes using real examples. We will also demonstrate components replacement best practices.

- ▶ **Monday, November 1st — Bismarck, ND**
- ▶ **Tuesday, November 2nd — Alexandria, MN**
- ▶ **Monday, November 29th — Sauk City, WI**
- ▶ **Wednesday, December 1st — Duluth, MN**

Advanced Driver Assist Systems

The goal of this class is to prepare the aftermarket technician to diagnose, service and reset ADAS systems and components. We will explain the operation of these systems and components and present diagnostic scenarios demonstrating proper reset techniques and what to do if they are not successful.

- ▶ **Wednesday, November 3rd — Willmar, MN**
- ▶ **Thursday, December 2nd — St. Cloud, MN**

Powertrain Electronics

This course will first focus on understanding electrical theory as it applies to powertrain systems including components such as sensors, actuators and their control circuits. We will then use that theory to diagnose complex systems through real-world case studies.

- ▶ **Thursday, November 4th — St. Cloud, MN**
- ▶ **Tuesday, November 30th — La Crosse, WI**
